PROFESSIONAL PROFILE

Full Stack Developer and SDE II with 5+ years of experience delivering scalable, production-grade web applications across maritime technology, automotive, food-tech, and enterprise domains. Proficient across the full stack — React, Next.js, Node.js, Java/Kotlin, Spring Boot — and cloud platforms (AWS, Azure). Actively leverages AI-assisted development (GitHub Copilot, Cursor, Augment, Claude AI) and has integrated OpenAI API into production workflows. Built custom frameworks, led teams, and shipped products used by global shipping operators and Fortune-500 clients. Recognised twice as Best Employee of the Year. EU Blue Card eligible. Open to relocation across the EU — available for a notice period of 30–60 days.

PROFESSIONAL EXPERIENCE

SDE II — Full Stack Developer

January 2025 – Present

Geoserve India Pvt. Ltd. (Subsidiary of Scorpio Marine Management)

- Contributing to GeoOne — the world's first unified Voyage Operations Suite (VOS) — covering voyage optimization, vessel performance, bunker procurement, port disbursements, laytime, and emissions compliance.
- Building full-stack features across web and mobile (device-agnostic) to power a 360° operations command centre used by global fleet operators.
- Developing RESTful APIs and real-time data pipelines integrating weather, vessel performance, and routing data for dynamic what-if scenario planning.
- Collaborating in a cross-functional, internationally distributed team to deliver scalable maritime intelligence features under Agile/Scrum.
- Leveraging AI-assisted development tools (GitHub Copilot, Cursor, Augment) and OpenAI API integrations to accelerate delivery and enhance product capabilities.

Full Stack Developer

September 2023 – January 2025

Daimler Truck Innovation Center India (DTICI), Bengaluru

- Part of a mid-size cross-functional team at DTICI — one of Daimler Truck's largest development centres outside Germany — building internal and global enterprise applications serving all Daimler Truck brands (Mercedes-Benz Trucks, Freightliner, FUSO, BharatBenz, Western Star, Setra).
- Developed full-stack features using MERN stack (MongoDB, Express, React, Node.js) and Java/Kotlin with Spring Boot for backend services and internal tooling.
- Built and maintained internal process and support systems (PSS) used across Daimler Truck's global business units — covering connectivity, data management, and operational workflows.
- Delivered responsive front-end interfaces and robust REST APIs integrated into Daimler Truck's enterprise ecosystem, collaborating with stakeholders across India and Germany.

Full Stack Web Developer — Team Lead

August 2022 – September 2023

Appiness Interactive Pvt. Ltd., Bengaluru

- Led a team of 8 developers building maritime technology products for Frontm, a global platform connecting ship crews and operators.
- Architected and built a custom JavaScript framework from scratch using Node.js, C++, and AWS to streamline Frontm product development and reduce feature delivery time.
- Designed modular, reusable framework components enabling teams to build and ship maritime applications faster with less boilerplate.
- Conducted code reviews, enforced coding standards, and mentored junior engineers on architecture and best practices.

Full Stack Web Developer

February 2021 – August 2022

Capgemini, Bengaluru

- Built a full end-to-end web application for a US-based restaurant chain, covering both customer-facing (ordering, reservations) and internal-facing (employee management, operations) modules.

- Developed front-end UI using React.js and back-end services using Node.js and Spring Boot, integrated with SQL and NoSQL databases.
- Implemented responsive design, authentication, and role-based access control (RBAC) for customers, employees, and administrators.
- Participated in full SDLC for a US client — requirement gathering, development, QA, deployment, and post-release maintenance.

EDUCATION

Bachelor of Engineering — Electronics & Communication Engineering
AMC Engineering College, Bangalore | Visvesvaraya Technological University

June 2019

TECHNICAL SKILLS

Languages	JavaScript (ES6+), Python, Java, Kotlin, C, C++, HTML5, CSS3
Front-End	React.js, Next.js, Vue.js, Angular, Redux, jQuery, Bootstrap, Material UI, SCSS/Sass/Less, React Native
Back-End	Node.js, Express.js, Spring Boot, Django
Databases	MySQL, PostgreSQL, MongoDB, Oracle, SQL Server
Cloud & DevOps	AWS (EC2, S3, Lambda), Microsoft Azure, GCP, Docker
AI & Dev Tools	GitHub Copilot, Cursor, Augment, Claude AI, OpenAI API, Prompt Engineering
Tools	Git, Postman, Jira, Agile/Scrum, REST API Design, RBAC, CI/CD

LANGUAGES

English — Professional Working Proficiency (C1)
Kannada / Telugu — Native
German — Beginner (A1, currently learning)

CERTIFICATIONS

- Introduction to Data Science — Coursera
- Agile Software Development — Coursera
- Agile with Atlassian Jira — Coursera
- R Data Science — Coursera

AWARDS & RECOGNITION

- Best Employee of the Year — awarded twice
- Creative Genius Award — for outstanding project contribution

INTERESTS

Cricket | Chess | Hackathons | Reading Fiction | Astrophysics & Space Science
